ALTERNATIVE THINKING

About us

Solgen Greentech LLP, headquartered in Mumbai, is a renowned Engineering, Procurement, and Construction (EPC) and Installation & Commissioning (I&C) firm specializing in Solar Photo-Voltaic Power Plants. Our extensive expertise spans installations on housing societies, industrial premises, and commercial establishments, with a strong track record in Net Metering services across various Distribution Companies (DISCOMs) including AEML, Tata Power, BEST, Torrent, and MSEDCL.

We offer comprehensive EPC and installation services for Solar PV Power Plants, backed by our in-house team of experts trained by masters in the Solar PV field. As a registered entity with the Ministry of New and Renewable Energy (MNRE), we facilitate seamless registration for our clients eligible for Central Financial Assistance (CFA).

Since our inception in 2014, we have successfully installed approximately 10 MWp + of capacity, consistently delivering exceptional services to our clients. Our pioneering efforts in achieving net metering in the early days have solidified our position as a leader in this service area, with a strong presence in Mumbai, MMR and rest of India.

ACTUAL IMAGE

Positive Impact Solgen Greentech LLP

- Solgen Greentech's solar installations generate around 45,000 + kWp of clean energy daily.
- Cutting reliance on fossil fuels and reducing CO2 emissions by 39.6 + tons.
- This is equivalent to planting 1,760 trees each day, contributing to reforestation and biodiversity.
